Our **vision** is to gather executive level thought leaders who can advance the state of the art in urban animal strategies

Our **mission** is to promote strategies that build healthy communities for pets and people and to recognize those who achieve success

The Regional Summits gather industry leaders (unit and branch managers) from all sectors of the pet industry. These one day events deliver content from the previous National Alumni Summit, promote industry collaboration in each region, provide **Continuing Education** for industry management and expand the number of collaborators working toward common goals and urban animal strategies in the companion animal industry.
